Entering RoB 2 data in RevMan Web

Rebecka Hall, Product Owner of RevMan
(Central Executive Team, Informatics and Technology Services)
Demo – Entering risk of bias 2 data
Development in RevMan Web

Do you think something can be improved?

• Send in a suggestion directly from RevMan Web

Recent improvements:

• Validation of missing risk of bias data
• Select which analyses to include result level tables for
• Include risk of bias in analysis forest plot (bot RoB 1 and RoB 2)

Re-occurring requests:

• Transfer judgments more easily to RevMan Web
