What this webinar covers

1. Searching the Cochrane Register of Studies Online (CRSO)

2. How to import references from CRSO to RevMan directly and indirectly via EndNote

- Brief presentation followed by demonstration of the steps involved

- Feel free to interrupt and ask questions throughout the webinar

Cochrane Register of Studies Online

- 'meta register' of specialised registers from all Cochrane groups

- 'real time' version of the Cochrane Central Register of Controlled Trials (CENTRAL) that is accessible via the Cochrane Library

- updated weekly

- basic and advanced search functionality

- linking of studies and reviews

- access via: http://crso.cochrane.org (authentication requires an active Archie account)

N2  - PURPOSE: Older adults living in long-term care experience high rates of chronic
pain. Concerns with pharmacologic management have spurred alternative approaches. The
purpose of this study was to examine a nursing intervention for older adults with
chronic pain. DESIGN: This prospective, randomized control trial compared the effect
of aromatherapy M technique hand massage, M technique without aromatherapy, and nurse
presence on chronic pain. Chronic pain was measured with the Geriatric
Multidimensional Pain and Illness Inventory factors, pain and suffering, life
interference, and emotional distress and the Iowa Pain Thermometer, a pain intensity
scale. METHOD: Three groups of 39 to 40 participants recruited from seven long-term
