People are Cochrane’s greatest asset

The best way for us to improve the quality of Cochrane Reviews is to bring these people together. To make it easier for us to find each other and work together.

Task Exchange is a software platform that connects people who need help with their Cochrane reviews with people who have the time and expertise to help.

Some of the tasks that people are getting help with right now!
- Data extraction
- Knowledge translation
- Consumer refereeing
- Dissemination
- Language translation
- Risk of Bias assessment
